Kyrenia, Northern Cyprus

Profile

Backend Developer with over 4 years of experience specializing in PHP (Laravel, CodeIgniter 3), .NET Core, and Go. Experienced in developing RESTful APIs for e-commerce platforms and educational systems, while managing complex database schemas with MySQL and PostgreSQL. Handles full-cycle deployment and Linux server configuration to maintain system stability and performance. Built backend infrastructures across various sectors at NS Studio, Ishesabi MMC, and Flup MMC.

Skills

- **Programming Languages:** PHP, JavaScript, SQL, C#
- **Frameworks:** Laravel, CodeIgniter 3, .NET Core MVC, Express.js, Fastify.js
- **Databases:** MS SQL, MySQL, MongoDB, PostgreSQL
- **Tools & Technologies:** AJAX, Tailwind CSS, Bootstrap, jQuery, Filament, HTML/HTML5, Git, GitHub, Linux

Work Experience

NS Studio • Backend Developer

July 2025 – September 2026

- Architected and developed scalable RESTful APIs for diverse sectors, including e-commerce platforms and educational management systems.
- Delivered numerous high-performance promotional and corporate websites, managing the full technical lifecycle from backend logic to final deployment
- Managed end-to-end deployment cycles and server configurations, overseeing Linux server administration and production environment stability.
- Developed robust administrative interfaces and management tools using Laravel and Filament, streamlining internal workflows.

The Projects of Azerbaijan • Backend Developer

December 2024 – July 2025

- Developed and maintained web applications using PHP and Laravel.
- Developed and maintained web applications admin panels using Filament
- Developed and maintained for WiseCP using PHP
- Integrated 3rd party payment gateways (Odero, United Payment)

Ishesabi MMC • Full Stack Developer

November 2023 – December 2024

- Developed and maintained web applications using PHP and CodeIgniter 3.
- Managed SQL databases and performed various database operations.
- Enhanced user experience with interactive features using AJAX technology.
- Developed and integrated RESTful APIs.
- Collaborated with the development team to design and optimize new features.
- Participated in debugging processes and resolved technical issues.

Flup MMC • Backend Developer

July 2023 – November 2023

- Developed and maintained web applications using PHP and CodeIgniter 3.
- Implemented backend logic and database interactions.
- Collaborated with the development team on new features.
- Developed RESTful APIs.
- Assisted in debugging and resolving technical issues.
- Utilized Git and GitHub for version control.
